TRUTH

Psalm 119:160

EXISTENCE

- Everything that has a beginning must have a cause.
- The first words of the Bible answer the first question (Gen. 1:1).
- The Bible gives a more complete answer to how God got here (Ex. 3:13-14).
- We have a logical answer to this question, they have no answer.

NATURAL LAWS

- Natural laws can only come from created nature (Gen. 8:22).
- Greeks believed math was limited in practicality.
- The pursuit of higher math was based on a Biblical worldview (Jer. 33:25-26).
- You can deny the creator while still making use of His creation (Matt. 5:45).

LAWS GOVERNING MEN

- Laws should be discovered, not made up (2 Chron. 1:10; Prov. 8:16).
- Western laws were built on the foundation of a Biblical worldview.
- There are no legitimate arguments for law without God (Gen. 1:26-27; 9:6).
- Even atheists are recognizing the value of a society built on Christian values.
